UK MANUFACTURING SINCE 1964.

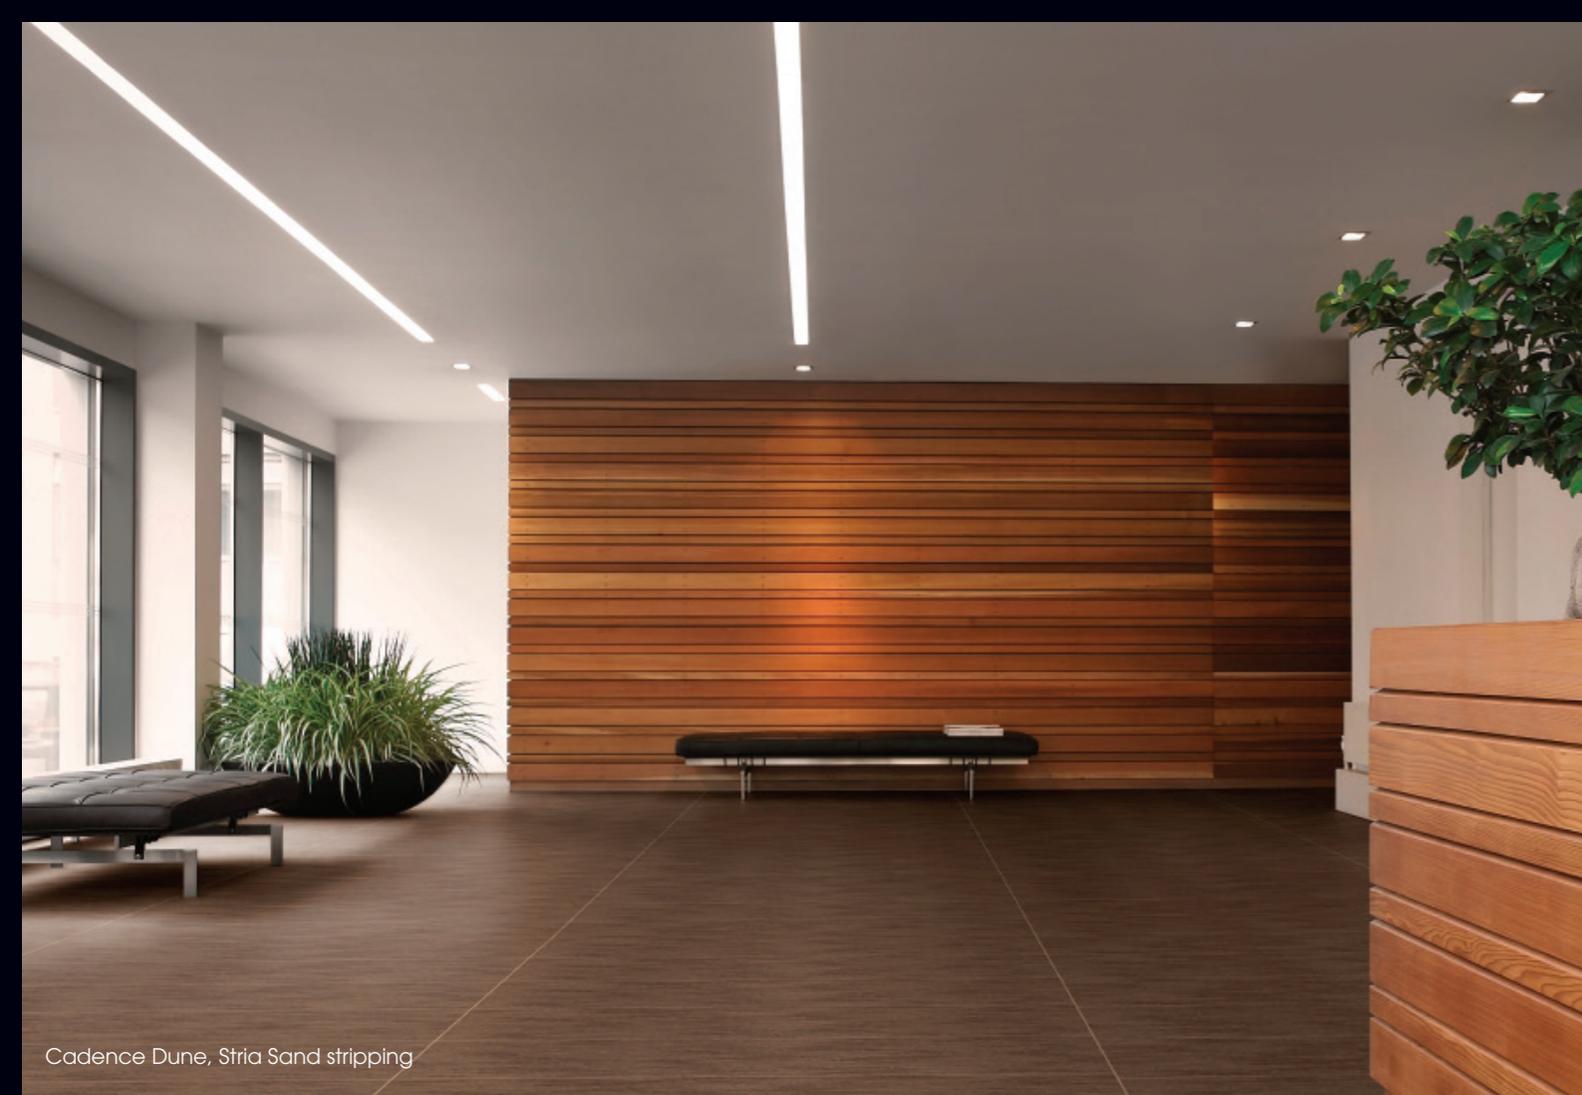

Since 1964, Amtico has been the driving force behind innovative flooring design. Our specialist design team travel the world gathering inspiration which is translated into exquisite collections by our team of UK based manufacturing experts.

As it was then and still is today - our goal is to push the boundaries, never compromising on styling, performance, service and manufacturing quality to constantly deliver beautiful, practical and timeless floorcoverings to help you turn your design vision into reality.

"THE CAPABILITIES OF THE IN-HOUSE MANUFACTURING TEAM ENABLE THE DESIGN TEAM TO CONSTANTLY PUSH THE BOUNDARIES OF WHAT IS POSSIBLE IN FLOORING DESIGN."

Karen Quarterman, Product Designer

Cadence Dune, Stria Sand stripping

Amtico International is part of Mannington Mills Inc; one of the largest flooring companies in the U.S. The alliance brings together like-minded, global design leaders, each providing a rich heritage and wealth of expertise. It reinforces the commitment to design quality, performance, customer service and the environment through innovative product design.

Mannington Mills Inc, based in Salem NJ, was founded in 1915; the company is privately held and employs over 1,700 people across the U.S.

Amtico, founded in 1964, employs around 600 staff globally.

DESIGN

The flexibility of the product and our manufacturing capabilities enable the design team to constantly push the boundaries of what is possible in flooring design.

We believe that creativity and the search for new ideas never stops. So, whether they are travelling the globe or being inspired closer to home, our in-house design team pride themselves on capturing the latest trends and translating them into stylish and inspirational flooring collections. It is this design ethic that has ensured Amtico continues to lead the way in flooring design and innovation.

MANUFACTURING

At Amtico we pride ourselves on our in-house design and local manufacturing - it's what sets us apart. We continue to innovate and invest in production and have consistently increased manufacturing capabilities in our Coventry and Atlanta factories.

With manufacturing facilities in the UK and USA it is not just the design of our products that benefit. By keeping manufacturing firmly in-house Amtico can help support the local economies in which we are based and deliver our products quickly with quality guaranteed.

"For all the years I've been here, it gives me so much pleasure, I've got so much passion - even getting up in the morning and coming to Amtico. I feel valued, I feel I am contributing."

HOSPITALITY & LEISURE

MERLIN ENTERTAINMENT

Paul Williams, Senior Creative Director, "Amtico has a fantastic range of colours and textures that really give our designers the freedom to create these worlds, to the best possible standards."

"When we're developing a new attraction and looking at flooring, we're looking at durability. It's foremost in our minds because we have so many visitors and thousands of people going through that attraction every day, it needs to look its best and Amtico does fulfill that brief. I've been to a lot of our attractions that are now a number of years old and it stands the best test of time."

HOSPITALITY & LEISURE

SELFRIDGES BALCONY BAR, BIRMINGHAM

Housed in one of Birmingham's iconic buildings is the latest addition to Selfridges' selection of eateries. Sears Balcony Champagne Bar resides on the fourth floor, offering stunning views over the city's shopping district, the perfect spot to indulge in some luxury.

Selfridges are renowned for their quirky and stylish stores and this eatery and bar was no exception. Local design firm Harrison were tasked with updating an existing restaurant working closely with Selfridges' in-house team to create a haven in this busy department store.

RETAIL

VOLT FASHION, ÖREBRO

In 2006 Varner Gruppen established the chain Volt. Volt focuses on boys and men between 19-35 years of age, who want clothing that represents both fashion and lifestyle.

The ambition is to continue to grow and become the leading multi-brand concept store in men's fashion over the next few years.

With Amtico flooring, VOLT were able to select a floor that would not just compliment the overall store concept but enhance it, both aesthetically and practically.

The ease of maintenance and superior dent and stain resistance make Amtico the leading choice for retail establishments.

EDUCATION

UNIVERSITY OF READING

The team at Stride Treglown Bristol chose Amtico Signature product - Equator Flow for the two key circulation areas in phase 1 of their Reading University refurbishment project. Kenton Simons, Senior Designer states:

"We wanted to create a very different look and feel to the carpeted finishes elsewhere. Amtico offered a contemporary design in a good range of formats, and the product we chose also had echoes of some of the original finishes in the building, allowing us to complete our vision of a sensitive refurbishment, that added a modern feel to the building whilst retaining its best period features. The finish is wearing very well, with maintenance requirements being minimal, and we have now specified further Amtico products for Phase 2 of the project."

STUDENT ACCOMMODATION

SCAPE LIVING, MILE END LONDON

Scape Student Living provides modern, stylish and designer student accommodation in greater London locations such as Greenwich, Shoreditch and Mile End. Their ethos is to make living and studying in London, easy, fun and enjoyable.

Scape East in Mile End, London was opened in 2012 housing 588 luxury studio apartments. Located in close proximity to the renowned Queen Mary University and a short walk to the Underground station, the impressive complex is spacious, welcoming and inspiring, offering students a variety of modern on-site facilities. Students also have access to a private courtyard garden, free gym, TV and games lounge, communal kitchen, study areas and two on-site restaurants. Most of the studio apartments at Scape East are exclusively designed, featuring integrated storage and work space, fully fitted kitchenettes, breakfast bars and with stunning en suites.

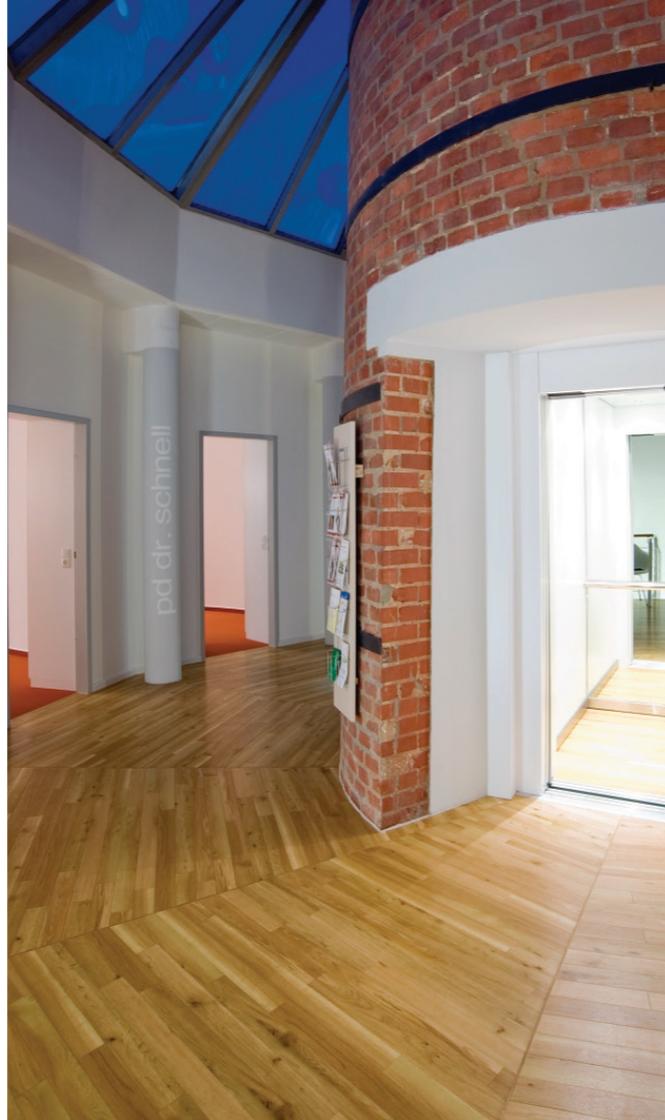

HEALTHCARE

PIOH FRECHEN CLINIC, GERMANY

On the site of a former brickyard, architect Ben Borchmann has converted an old industrial building into a modern medical practice. The building combines open and contemporary ambience with the industrial charm of past times.

"We wanted to create a pleasant and natural atmosphere in the whole practice," explains Borchmann. "Especially in medical rooms, colour and spatial arrangement can significantly contribute to the well-being of the patients."

The floor covering offered a workable solution for the whole practice, even with narrow radii there were no problems."

OFFICE

GOCOMPARE.COM

As the company has expanded so too has its workforce, seeing the UK Head Office move to new building in Cardiff.

Local interior design firm, Paramount Interiors, were responsible for creating the 'wow-factor' around the building from offices and break-out areas to the contemporary new canteen. Amtico Signature's Glint Void and Glint Orb were used to create the stunning backdrop to the 1950's themed diner and break-out area.

CUSTOM DESIGN

Create your own floor, combining products from our range in any design of your invention. From company names and logos, to large scale bespoke plans. The unique cutting nature of Amtico Signature allows you to sketch your design and our team will turn your vision into a reality.

SUSTAINABILITY

We want our products to make an impact, but not to the environment. Our commitment to sustainability can be measured in a number of ways and focuses on improving environmental performance:

- Amtico was amongst the first manufacturer in its field to be awarded ISO 14001
- Amtico has eliminated waste to landfill and is now zero waste to landfill
- Amtico was amongst the first to remove stabilisers and pigments using heavy metals
- Almost 100 % of Amtico's production scrap is recycled back into the product
- Amtico was amongst the first company to introduce no-dressing treatment reducing the use of maintenance chemicals
- Amtico has eliminated waste to landfill and is now zero waste to landfill
- Amtico is among the first flooring companies to offer post-consumer recycling for LVT
- Local production in Europe and USA reduces transport energy consumption
- Amtico Signature products have been assessed and certified as A+/A by the Building Research Establishment Environmental Assessment Method (BREEAM) which provides a credible and objective environmental rating for a building's environmental impact
